## **Pre- Plot/Opening/Closing cost Payment Plans**

Funeral and Cemetery costs can be costly and burdensome on a family, particularly when someone had died unexpectedly. Pre-planning a funeral for yourself or a loved one can not only help by lessening the unexpected financial burden but also may allow for a more contemplative and thoughtful decision process because a lesser degree of urgency exists. At El Camp Santo we understand the importance of pre-planning and have developed payment plans for our customers that provide affordable alternatives and allow the opportunity to carefully make needed end of life decisions for yourself or a loved one. Pre-planning and pre-selecting the sacred place where you or your loved one will rest is an important choice to make. We are here to assist you with this process.

## **Payment Plan Options**

### **Option 1:**

You or your loved one can have a time span of one year from the time the interment agreement is signed to make monthly payments on the plot as well as other cemetery cost such as opening/ closing fees. Selecting a period of a year to address cemetery costs will provide a reasonable length of time with only a minimal administrative cost of \$50.00 associated with this choice.

### **Option 2:**

You or your loved one can select a shorter span of six months from the time the interment agreement is signed to make monthly payments on plot as well as other cemetery costs such as opening/closing fees. Selecting the shorter payment period of six months to address cemetery costs may better fir your budget and timing. This option will include only a minimal administrative cost of \$25.00.

Please call and speak to Anita Lucero (505) 836-0306 for further details and or to set up a consultation.
